Mattia Sensi

Postdoctoral researcher at Politecnico di Torino

Politecnico di Torino Corso Duca degli Abruzzi 24, 10129 Torino - Italy

RESEARCH INTERESTS

Mathematical modelling, mathematical biology, mathematical epidemiology, dynamical systems, multiple time scales dynamics, Geometric Singular Perturbation Theory (GSPT), qualitative theory of ordinary differential equations, partial differential equations, integro-differential equations, delay differential equations.

EDUCATION

Ph.D. in Mathematics, cum laude, Università degli Studi di Trento.

November 2017 - January 2021

Email: mattia.sensi@polito.it

Website: mattiasensi.github.io

Thesis: "A Geometric Singular Perturbation approach to epidemic compartmental models"

Supervisor: Prof. Andrea Pugliese

M.Sc. in Mathematics, Universiteit van Amsterdam.

September 2015 – June 2017

Thesis: "Homoclinic vegetation stripes in a Klausmeier-Gray-Scott model" Supervisor: Prof. Dr. Arjen Doelman

B.Sc. in Mathematics, Università degli Studi di Padova.

September 2011 – September 2014

Thesis: "Portfolio optimization for quadratic utility function with partial information"

Supervisor: Prof. Wolfgang J. Runggaldier

Research experience

Postdoctoral researcher in Mathematics, Politecnico di Torino.

March 2023 - present

March - November 2021

Postdoctoral researcher in the group of Prof. Andrea Tosin.

Postdoctoral researcher in Mathematics, Inria at Université Côte d'Azur.

December 2021 – February 2023

Postdoctoral researcher in the group MathNeuro, led by Prof. Mathieu Desroches. Postdoctoral researcher in Mathematics, TUDelft.

Postdoctoral researcher in the group NAS, led by Prof. Piet Van Mieghem.

TEACHING EXPERIENCE

At Politecnico di Torino:

• Assistant teacher for Prof. Luisa Mazzi's course Analisi 1, for first year students of Bachelor's Degree in Aerospace Engineering, October 2023 – February 2024

At Inria - Université Côte d'Azur:

• Teacher of Mathematics for *Linear Algebra Bootcamp*, for first year students of Master's Degree in Computational Neuroscience, September – October 2022

At Università degli Studi di Trento:

- Assistant teacher for Prof. Alberto Valli's course Analisi 1, for first year students of Bachelor's Degree in Civil, Environmental and Mechanical Engineering, September 2018 February 2019, September 2020 February 2021, September December 2022
- Tutor for Prof. Andrea Pugliese's course *Probabilità e Statistica 2*, for second year students of Bachelor's Degree in Biotechnologies, February May 2018

At Università Popolare Trentina (CFP-UPT):

• Teacher of Mathematics, October 2019 - June 2020

At Universiteit van Amsterdam:

- Assistant teacher for Prof. Dr. Rob Stevenson's course *Numerieke Analyse*, for third year students of Bachelor's Degree in Mathematics, February June 2017
- Assistant teacher for Dr. Han Peters' course Wiskunde 3, for third year students of Bachelor's Degree in Physics, November –
 December 2015

Other:

- Private tutor for Camplus, Torino, May June 2023
- Private tutor for WisMon / Bèta onderwijsinstituut, Amsterdam and Utrecht, April 2016 June 2017
- Freelance private teacher of Mathematics and Physics, for high-school and university students, 2008 present

Mentoring

Master thesis:

- Brian Chang, February June 2021. Modeling the Spread of Epidemics
- Liufei Yang, February June 2021. Developing a Markov-Modulated Process Model for Mobility Processes

VISITING PERIODS

Visiting postdoc:

- Lyon, France, 4 8 June 2023. At Inria Lyon, working with Laurent Pujo-Menjouet and Mostafa Adimy
- $\bullet \ \ \text{Trento, Italy, 5-8 December 2022; 27-31 March 2023. At University of Trento, working with Andrea Pugliese and Sara Sottile}$
- Amsterdam and Groningen, the Netherlands, 21 25 November 2022. At Vrije Universiteit Amsterdam and Rijksuniversiteit Groningen, working with Bob Rink and Hildeberto Jardón-Kojakhmetov

Visiting Ph.D. student:

• München, Germany, 15 April – 15 June 2019. At Technische Universität München (TUM), working with Christian Kuehn and Hildeberto Jardón-Kojakhmetov

COMMUNICATIONS

Invited speaker, Integrated Mathematical approaches to Socio-Epidemiological Dynamics, Trento.

Poster presentation, Special Semester on Mathematical Methods in Medicine, Linz, Austria.

29 - 31 January 2024

Title: "A general kinetic model for the spread of infectious diseases in continuously structured compartments"

Scientific committee, Complex Networks 2023, Menton Riviera, France.

28 - 30 November 2023

Member of the scientific committee which evaluates abstract and article submissions.

30 October – 3 November 2023

Title: "A general kinetic model for the spread of infectious diseases in continuously structured compartments".

Part of workshop 1 "Epidemics modeling"

Invited speaker, SIMAI 2023, Matera.

28 August – 1 September 2023

Title: "A general kinetic model for the spread of infectious diseases in continuously structured compartments". Part of the minisymposium "MS03: Recent Advances on the mathematical and numerical modeling of epidemics"

Invited speaker, Inria Lyon.

7 June 2023

Title: "Various approaches to the mathematical modelling of epidemics"

Scientific committee, FRCCS 2023, Le Havre.

 $31~\mathrm{May}-02~\mathrm{June}~2023$

Member of the scientific committee which evaluates abstract and article submissions.

Contributed speaker, Workshop MSE, Naples.

18 - 19 May 2023

Title: "A geometric analysis of the SIRS model with secondary infections"

Invited speaker, University of Trento. 7 December 2022 Mathematics Seminar, title: "Delayed loss of stability in multiple time scale models of natural phenomena" Invited speaker, Rijksuniversiteit Groningen. 23 November 2022 Floris Takens Seminar, title: "Entry-exit functions in fast-slow systems with intersecting eigenvalues" Invited speaker, Vrije Universiteit Amsterdam. 21 November 2022 Extra Dynamics Seminar, title: "A Geometric Singular Perturbation approach to epidemic compartmental models" Invited speaker, University of Edinburgh. 14 October 2022Applied and Computational Mathematics, title: "Delayed loss of stability in multiple time scale models of natural phenomena" Minisymposium organizer and contributed speaker, ECMTB 2022, Heidelberg. 19-23 September 2022Title: "A generalization of the full SNARE-SM model". Minisymposium: "Recent advances in mathematical modelling in neuroscience" Contributed speaker, ENOC 2022, Lyon. 17 - 22 July 2022 Title: "Delayed loss of stability in multiple time scale models of natural phenomena". Part of the minisymposium "MS-05 Slow-Fast Systems and Phenomena" Contributed speaker, 100 UMI - 800 UniPD, Padova. 23 - 27 May 2022Title: "A Geometric Singular Perturbation approach to epidemic compartmental models" Seminar organizer, Inria – Université Côte d'Azur. April – September 2022 MathNeuro seminars, cycle of seminars on mathematical models in neuroscience Invited speaker, University of Edinburgh. 11 March 2022 Edinburgh Dynamical Systems Study Group, title: "Entry-exit functions: beyond eigenvalue separation" Invited speaker, University of Edinburgh. 18 June 2021 Edinburgh Dynamical Systems Study Group, title: "A Geometric Singular Perturbation approach to epidemic compartmental models" Organizer, scientific committee and contributed speaker, DSABNS 2020, Trento. 4-7 February 2020 Title: "A GSPT approach to epidemics on homogeneous graphs" Invited speaker, University of Trento. 12 September 2019 Doc in Progress, title: "An introduction to Geometric Singular Perturbation Theory" Contributed speaker, Edinburgh Slow-Fast-Ival, Edinburgh. 4 - 5 July 2019 Title: "A GSPT approach to perturbed SIR and SIRWS models" Contributed speaker, DSABNS 2019, Naples. 3 - 6 February 2019 Title: "A GSPT approach to perturbed SIR and SIRWS models" 21 January 2019 Invited speaker, Technische Universität München (TUM). Oberseminar Dynamics, title: "A GSPT approach to perturbed SIR and SIRWS models" Reviewing Journals: • Advances in Difference Equations • Journal of Mathematical Biology • Applied Mathematical Modelling • Mathematical Biosciences and Engineering • Mathematical Methods in the Applied Sciences • Contemporary Mathematics • Mathematics • Epidemiologia • Mathematics and Computers in Simulation • International Journal of Biomathematics • Physica D: Nonlinear Phenomena • Journal of Biological Systems

- Journal of Complex Networks

• SIADS

Attended conferences, schools and workshops

Selected participant, Modeling, analysis, and control of multi-agent systems across scales, Pisa.	$22-26\ January\ 2024$
Selected participant, NeuroMod Meeting 2022, Antibes.	$30\ June-1\ July\ 2022$
Selected participant, MoDiS – Modelling Diffusive Systems: Theory & Biological Applications, Edinburgh.	6-9 September 2021
Selected participant, online Hausdorff School: Diffusive Systems, Bonn.	12 - 15 April 2021
Selected participant, Mathematical Biology on the Mediterranean Conference, Samos.	1-8 September 2019
Selected participant, Multiscale Phenomena in Geometry and Dynamics, München.	22 - 26 July 2019
Selected participant, Mathematics for BioMedicine, Rome.	8 – 11 October 2018
Selected participant, The Helsinki Summer School on Mathematical Ecology and Evolution 2018, Turku.	19 - 26 August 2018

Membership and collaborations

2024-present

Member of the European Society for Mathematical and Theoretical Biology (ESMTB)

Collaborazioni Matematiche con il Sud Globale - UMI

Member of the group Collaborazioni Matematiche con il Sud Globale (Mathematical Collaborations with the Global South) of the Unione Matematica Italiana

2023 - present MSE - UMI

Member of the group Modellistica Socio-Epidemiologica (Social-Epidemiological Modelling) of the Unione Matematica Italiana

2023 - present

Member of the Complex Systems Society France

Mathematical Epidemiology group, University of Trento

2021 - present

2024 - present

External collaborator of the Mathematical Epidemiology group, University of Trento

 $\mathbf{GNAMPA} - \mathbf{INdAM}$ 2017 - 2021

 $\label{lem:member of the group} \textit{Gruppo Nazionale per l'Analisi Matematica, la Probabilità e le loro Applicazioni, of the \textit{Istituto Nazionale di Alta Matematica}$

Software

IATEX, Matlab, Wolfram Mathematica, Python, Microsoft Office tools.

Languages

Italian (mother tongue), English (C1).
